

## HOW TO BUY STUDIO DRAGONFLY JINGLES

#1: Visit the demo section and select the package(s) you want.

#2: Before you do anything else, e-mail us at [Dragonfly@TMCentury.com](mailto:Dragonfly@TMCentury.com) and see if the package is available in your market. Here's the information we'll need:

- a. The name(s) and number(s) of the package(s) you wish to license
- b. Your legal call letters (i.e. "KHKS" not "Kiss 106") or complete name of your station if it is outside the U.S.
- c. Your city and state/prov and country of license
- d. Your name, title and phone number

Typically we can get back to you within 24 hours and let you know if the package is available. If it is available, move ahead to step #3. If it isn't, go back to step #1. (You may want to submit a first, second and third choice of packages so as to avoid having to repeat this step.)

#3: Select the cuts you wish to produce. Each package has a set number of cuts that are included in the basic license fee and a fee for which additional cuts may be purchased.

#4: Download the **Production Pack** ".pdf" file...which includes the lyric sheets. You need to have Adobe Acrobat Reader installed in your computer in order to read these files. If you don't have Adobe Acrobat Reader, you may download it for free by clicking on the Adobe logo on that same page.

#5: Read the "**How To Write Lyrics**" page and then print or type the lyrics you wish us to sing for each jingle on the lyric sheet.

#6: Fill out the license request forms.

#7: You can choose to pay the full amount up front and save 5% on the basic package. Or, via credit card only, pay 20% down and have us bill your credit card the remainder over the next 12 months. Enclose a check for the full amount or fill out the credit card authorization form and mail all the paperwork to:

**Studio Dragonfly  
TM Century, Inc.  
2002 Academy Lane  
Dallas, TX USA 75234**

#8: We will call you to confirm the receipt of your package and shortly thereafter e-mail you a final license agreement, which you will need to sign and return to us before we can begin production on your package.

#9: You will receive regular e-mail updates on the progress of your package's production.

#10: When completed, the jingles will be FedEx'd to the name and address you provided on your Production Pack Customer Information Sheet.

## Studio Dragonfly How To Write Lyrics

It's actually a lot simpler than you might imagine. Just think back to that scene in The Sound Of Music where Maria is teaching kids how to sing. You start off with Do – Re – Mi and then you add words to replace the “Do – Re– Mi”. Like “One – Oh – Three”.

The trick is to remember that each note can be replaced by one syllable...so if you have a three syllable word...say “Washington” it would take the place of the “Do”, the “Re” and the “Mi”.

So, for your jingles, start off by counting the number of notes in the jingle's lyrics as they are listed on the lyric sheet.

“**The Best Mix Of Today's Hits 99.5 W T M C**” is 18 notes/syllables long. Keep in mind that the “W” is three syllables and, if you want to sing the “point” in “ninety nine point five”, then that's a syllable, too.

So with 18 notes/syllables to work with, you do any of the following:

**“Lincoln's Best Mix One-oh-seven-point-five K L M X”**

Note that this is only 14 syllables...but fewer syllables than allowed is not a problem

**“The Buzzy & Bob Show MIX ninety-six-point-three”**

**“Today's hits and yesterday's favorites, Z one-oh-four-one F M”**

Note, this is 17 notes/syllables long, but you can sing “favorites” as “fav-rites” as opposed to “fav-or-rites” and save a syllable in the process. The same goes for words like “memories”....few people actually say “mem-or-ries”, most folks...including Barbra Streisand say “Mem-ries”.

And don't worry....all of your lyrics will be reviewed by an adapter who converts your lyrics into sheet music for the singers.

Pay special attention to the pronunciation of words that may seem common to you, but not to us. Even simple words like “Lancaster” can be mispronounced. In Pennsylvania, “Lancaster” is pronounced “LANK-is-ster”...in California it's “Lan-CAST-ter”. Every Yankee knows that Worchester is pronounced “Woos-Ster”.... Texans, however would likely pronounce it “Wor-Ches-Ter”.

You should make note of any special pronunciations on your Production Work Sheet that will accompany your lyrics. **However, the best thing to do is to go into your studio and record all the words on a cassette and include it along with your paperwork.**
